Parent's guide

A fun and educational workbook for children ages 3 and up that focuses on developing their writing skills.

Children will enjoy the cute characters and exercises on each page, which will help them learn line awareness and pencil control, develop fine motor skills, hand-eye coordination and pencil grip. In addition, every other page contains letters to aid in the practice of handwriting, which can greatly improve letter formation and legibility. The development of these skills can be very beneficial for children's future ability to read and write.
